Comments from past participants:

"CELf's instructors were so inspiring and knowledgeable yet so approachable. They were great sources of information and were able to help me generate big ideas and lesson plans."

"The CELf program exceeded my highest expectations. You have inspired, challenged and equipped us for a tremendous school year filled with sustainability education programs for our students. Your knowledge, energy, commitment and teaching skill are unbelievable (and unparalleled). You helped our teachers develop curriculum and lessons appropriate for their programs and given them the knowledge and tools they need to be successful."

"Frameworks for structuring critical thinking were great! The materials, teamwork opportunities, applications and mini-sessions were all terrific. It was extremely helpful to get guidance identifying areas of the curriculum and school environmental where sustainability education fits and is necessary."

Any Questions? Please call Katie Ginsberg, Executive Director at (914) 238-4743.
